

LEARN ABOUT REIMBURSIFY

An easy way for you to file an out-of-network reimbursement claim.

Does Connect Take My Insurance?

Connect Pediatric Therapy is an “out-of-network” provider which means we are not bound by the mandates and limitations of an “in-network” insurance provider. Our treatment is built around the best practices for your child, not what an insurance company deems allowable. We think you will find our fees very reasonable as compared to “in-network” providers.

How do you know if your insurance company provides “out-of-network” benefits?

The best way is to contact your health insurer, who can provide you with information about out-of-network benefit coverage levels, deductibles, percentage of reimbursement for services provided, any limitations and any pre-authorization requirements.

Do You Have to File Paperwork with Your Insurance for Treatment?

No! For your benefit we have partnered with Reimbursify for you to easily submit your claims for out-of-network health insurance reimbursement electronically. Using the Reimbursify app, you can file your monthly expenses in minutes. Around the 5th of each month, a “superbill” for the previous month’s services from Connect Pediatric Therapy is generated and emailed to you reflecting the cost of services you’ve paid. The superbill has necessary codes enabling you to file a claim with the Reimbursify app within minutes. The app will alert you when the claim has been received by your insurance company and then again when you should expect your reimbursement check in the mail (usually within 3-4 weeks). That’s it! There are no forms to fill out, nothing to fax or mail, and nothing to remember. Connect Pediatric Therapy has paid all fees associated with the automated filing of these claims

How to Use Reimbursify

1. Download the free Reimbursify app on your smart phone or tablet.
2. Create a personalized registration.
3. THAT'S IT! You will be able to file a claim by entering the treatment codes from the superbill into the app within minutes.

Questions?

Call any time -OR- Jessica would be happy to go over Reimbursify and/or verify your benefits during one of your child's already scheduled appointments.
